Company Profile

Smoothy Electrical Pty Ltd was established in 1995, as a privately owned commercial electrical company that also focuses in servicing light industrial and domestic installations.

We are a leading electrical contracting company that provides lasting solutions that deliver value-added service for our customers. We do this by partnering with our clients to exceed their expectations and gaining their trust through exceptional performance by every member of the team.

We have had a long association with major communication companies since our begins, offering construction and electrical services associated with:

- M.S.B. Installs & Upgrades
- Generator Installations
- Site Electrical Upgrades
- Hut Footings & Location as well as Earthing
- Repairs and Construction of access tracks to communication sites.
- All General Electrical Repairs and Maintenance.
- Generator Support of Sites During Power Interruptions.
- Audits of Existing Electrical Installations.

We have also completed DC installations including the installation & upgrade of DC power systems with Flat Pack and earlier systems installations of mobile cabinets and DC power and alarm cabling associated with the LTE roll out and 4G upgrade including RRU installations

Our business objective is to be the preferred commercial electrical contracting company dictated to providing lasting solutions that deliver value-added service that improve our infrastructure and community life style.

Our key services include the following:

- Electrical Contracting Installations
- Design and Construction of Electrical Installations
- Maintenance of Electrical and Power Generation Plant
- Audit and Reporting of Existing Electrical Installations.
- Service and Maintain Emergency Lighting and Evacuation Systems.
- Upgrade of Access Tracks to Communications Sites
- 24 Hr on Call Service for Breakdowns.
- 24 Hr on Call Generator Power Support During Power Outages

**“a team of skilled
and capable people,”**

Strategy & Vision

MISSION STATEMENT

Smoothy Electrical Pty Ltd is a leading electrical contracting company that provides lasting solutions that deliver value-added services for our customers. We will do this by partnering with our clients to exceed their expectations and gaining their trust through exceptional performance by every member of the team.

VALUES

Smoothy Electrical Pty Ltd business durability in our community is testament to its core values:

- Commitment to quality workmanship, maintaining high standards of Health and Safety and commitment to protecting our Environment
- An honest and transparent relationship with our customers based on mutual trust and respect.

Our priority is to
provide lasting
solutions that
deliver value-
added services for
our customers.

Our Portfolio

Great Keppel Island

When the Resort closed with minimal notice on Great Keppel Island, we were contracted to provide temporary power by means of generator to supply the exchange for communications on the island. After a period of time we were approached to design and supply a semi-permanent power supply including change over generators supplied by dual 2500 litre fuel tanks in fully bunded area. This installation was built on the mainland and barged to Great Keppel Island and then connected and commissioned on site.

Portfolio (cont.)

North Rocky CMTS Access Track

Upgrade of a seriously deteriorated steep access track was undertaken by Smoothy Electrical. The project included earth work preparation, pit and pipe for fibre for two carriers for approx 1.5 km and the concreting of approx 600 mtrs of track on steep grades up to 39 percent.

Portfolio (cont.)

Callemondah Locomotive Facility D&C Loco Shore Power (1000 amp MSB)

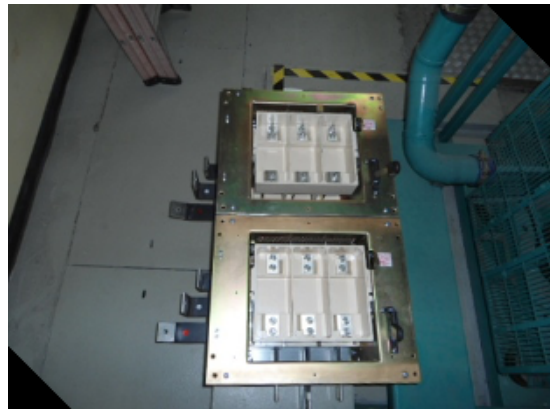

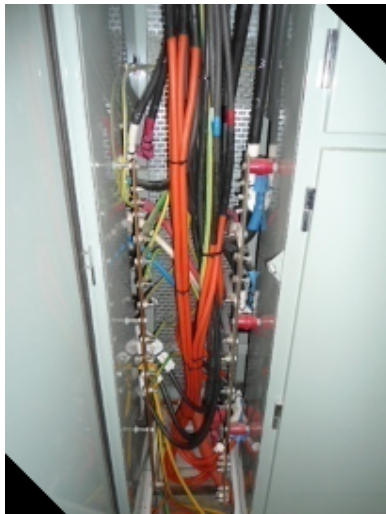

In 2015 Smoothy Electrical was contracted to supply a D&C proposal to replace the shore power and 110 volt DC supply to the locomotive repair facility at Callemondah. This job was completed in time frames during shutdowns of no longer than 60 hr windows. A major logistical challenge was to scaffold out the entire facility to provide access at a high level for the installation of the shore power and dc supply submain cables.

Rockhampton & Bundaberg Telephone Exchange

Installation of Submains and NBN Main Switchboard (Bundaberg)

Installation of Submains and NBN Main Switchboard (Rockhampton)

Smoothy Electrical has extensive experience across the Central Queensland region and has a reputation, crafted over the past 20 years, for providing quality, cost-effective electrical work in all areas of industrial and domestic installations.

Other Projects Include:

- **Spring Gully** - Installation Mobile Phone Base
- **Lammermoor Beach Mobile Base** (Including Monopole and Footing)
- **Coolum Beach West** - Site Mobile Base Upgrade.
- **Kawana** - Mobile Base (Including Monopole and Footing)
- Electrical Maintenance to Telstra Buildings
- Audits and recommendations to Electrical Installation to Improve Efficiency.
- **Discovery Industrial Estate** - Electrical and Data installations of 13 tilt wall industrial buildings in Discovery Estate Rockhampton including General Storage to Engineering Works.
- **Rail Infrastructure** - Installing AC & DC control systems in Communications Buildings in the rail corridor from Mackay to Gladstone. This includes general electrical on the buildings as well as the AC & DC control to motorized isolators on the track. Electrical reticulation and earthing to a number of rail supersites to collect data from coal trains with high speed cameras.

Additional Information

- Installation of high speed camera monitoring of coal trains in the Rail Network across multiple sites in Queensland and NSW.
- Preferred Contractor to American Design Company of the above technology to supply and install electrical circuits to the equipment.
- Multiple Commercial Tilt Wall Buildings to ASM Builder over a period of 10 plus years. Example – Farm & Garden Products, Kent and Archer, Wide Bay Cranes (Bundaberg).
- 15 Villas ASM Builder Rockhampton – 12 Month Project.
- Multiple Site installation for Communications Site Underground Power Supply, earthing and communications supply. Alligator Creek 1100mtrs of UG Supply from base to top of mountain for High Speed Broadband Communication.
- Provision of Maintenance services to Rockhampton District Aboriginal & Islander Coop to supply electrical to 55 houses.
- Sub-Division underground power & reticulation to Parkhurst Motel and Motorhome Park.
- Contracted to construct and commission 2 weather stations which gather Rain, Sun and Wind Information for an upcoming Solar Farm. Equipment was supplied from Spain and commissioned with direct contact with Spanish Designers and Technicians.
- Upwards of 30 Switchboard Upgrades for High Speed Broadband Network.

Quality Management

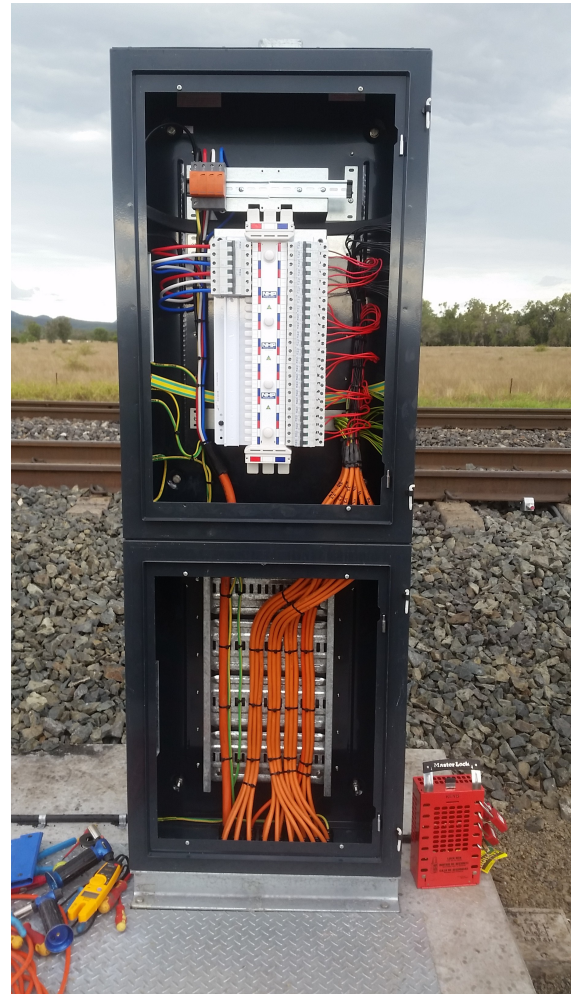

Smoothy Electrical has comprehensive quality control systems which focuses on continuous improvement and the pursuit of the highest level of customer service.

The systems and practices we employ:

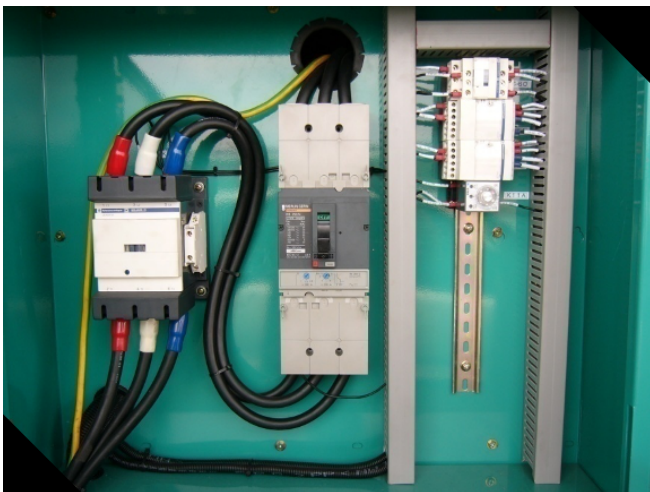

- Ensure the Safety, Health and Welfare of our employees and any clients, sub-contractors or community members who either, directly or indirectly are involved in our operations;
- Protect and when feasible, enhance, the environments in which we undertake work; and
- Provide our employees with the opportunity to develop their skills and competencies

We consistently strive to deliver products and services:

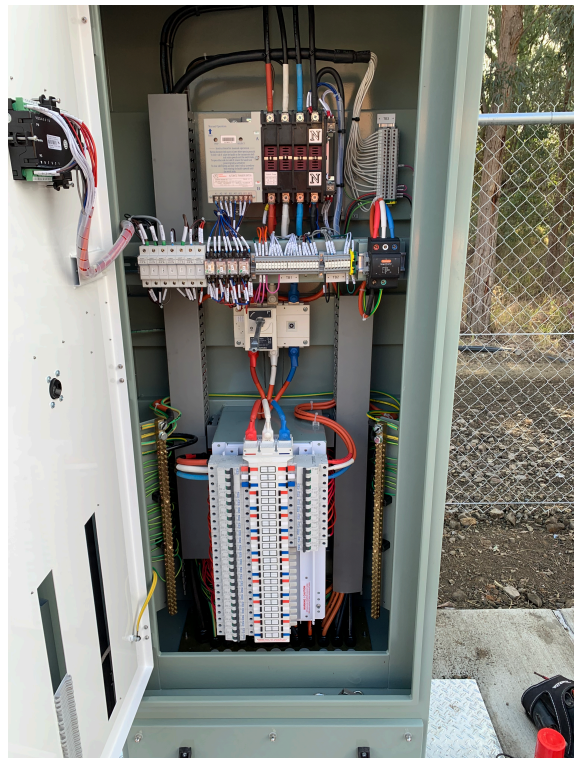

- At the right time, in the right amounts, in the right condition, to the right place;
- Meeting the agreed and promised characteristics and specifications;
- Being accompanied by the necessary and agreed documentation;
- Complying with the provisions of the appropriate laws and regulations; and satisfying agreed contractual and commercial considerations
